### Comments

*My sister the monitoring was good because I was able to monitor my own baby heart beat to know the good heart beat and the bad heart beat. This monitoring did not cause any problem for me and my baby. It help to save my baby.*

*Thanks to our big big people for this program. If this program was not available my baby would have died or something bad may have happen to me. I was to beg the big big people who came with this program to please continue because the program is really helpful to mothers who are borning babies.*

*I find the monitoring very good and it help me with my labour because I am alive. It did not cause any problem for me the only problem was my baby came out very depressed but I thank God for life. The people help me doing my labour.*

*I am very grateful for the monitoring because it has brought comfort and reduces stress. It help me understand my baby heart beat. I pray that the service continue.*

*Thank God that learn new thing by listing to my baby heart beat. It give me strong and made me so proud of what I was doing. I appreciate the organisation that brought such a unique program.*

*The monitoring was fine with me it did not cause me any problem. To tell you the truth this is one of the best services that have enter the hospital. I pray that it will continue.*

*This monitoring was fine with me it did not cause me any problem. To tell you the true when asking me to do this monitoring I thought that you did not want to do your work in the hospital but when I started to hear my own baby heart beat it made me happy.*
